

Digital Phone Voice Mail Instructions

The following instructions are for Time Warner Cable Digital Phone customers who subscribe to the Voice Mail feature.

Setting Up Your Voice Mail Account

You will need to set your Voice Mail up before using it. Once set-up is complete, your Voice Mail will be ready to receive messages.

Personalizing Your Voice Mail

1. Enter your Digital Phone home telephone number.
2. The Voice Mail system will ask for your temporary Personal Identification Number (PIN) — which is the last 4 digits of your Digital Phone telephone number.
3. The Voice Mail system will then prompt you to select a 4 digit Personal Identification Number (PIN) and to press the (#) key. Select a PIN that is easy to remember, but difficult for someone else to guess. Please note that your PIN cannot contain # or *.
The Voice Mail system will ask you to verify your PIN by entering it a second time and pressing the (#) key.
 - **Note:** Digital Phone allows you the option to access your Voice Mail without using your PIN. This option (PIN SKIP) is automatically enabled when accessing your Voice Mail system from home. If you would like to disable PIN SKIP simply access the Voice Mail system and dial 4-3-2-2. Should you like to re-enable PIN SKIP you can also dial 4-3-2-2; the system will always tell you the status of PIN SKIP and you can decide when to enable or disable this feature.
4. The Voice Mail system will prompt you to state your name and press the (#) key. If multiple people use Digital Phone, you should record a name that represents all individuals in the home. For example, 'Sam and Rebecca' or 'The Smith Family.'
When completed you may:
 - Press the '1' key to use the recording of your name.
 - Press the '2' key to listen to the recording of your name.
 - Press the '3' key to record your name again.
5. The Voice Mail system will ask you to record a greeting followed by the (#) key. This is the greeting callers will hear when you are unable to answer the phone.
 - Press the '1' key to use the recording of your standard greeting.
 - Press the '2' key to listen to the recording of your standard greeting.
 - Press the '3' key to record your standard greeting again.

6. Once your Voice Mail account set-up is complete, you will have the opportunity to listen to the main menu, or, if you are finished, simply hang-up to exit. You may also exit by pressing (*) 9.

Retrieving Voice Mail Messages

The following instructions will guide you through the process of retrieving your Voice Mail messages. There are two possible ways to access your Voice Mail. By dialing your own Digital Phone telephone number or through the Voice Mail access number (**MO** - (816)569-0222 **or KS** - (913)766-1000).

You can retrieve messages from your Digital Phone at home or, while you are away from home, using any touch-tone phone.
