

Tuning Adapter installation

Use these Easy Connect instructions to guide you through the installation of your Tuning Adapter.

If you need assistance installing your Tuning Adapter, please call Technical Support at:

Within California: **(877) 309-5869**
 Outside California: **(877) 893-2205**

Additional charges may apply if a Time Warner Cable Technician completes the installation in your home.

Easy Connect kit contents

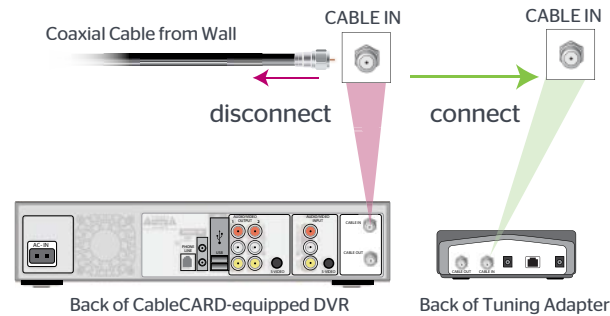

Actual items may vary slightly in appearance from those pictured above.

Step 1 Move coaxial cable from DVR to Tuning Adapter

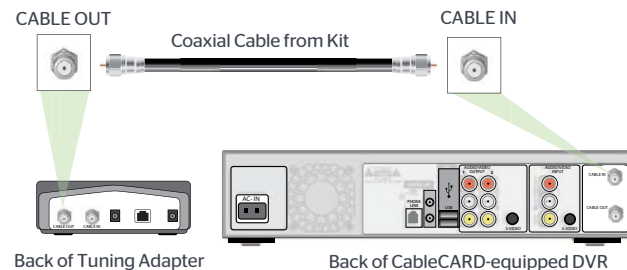

Find and disconnect the Coaxial Cable from the "CABLE IN" port on your CableCARD-equipped DVR (TiVo™).

Connect the same Coaxial Cable end to the Tuning Adapter port labeled CABLE IN (or RF IN).

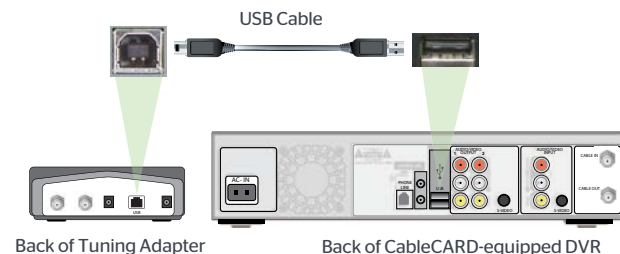

Step 2 Add coaxial cable from Tuning Adapter to DVR

Connect a second Coaxial Cable from the Tuning Adapter port labeled CABLE OUT (or RF OUT) to your CableCARD-equipped DVR port labeled CABLE IN.

Step 3 Connect USB from Tuning Adapter to DVR

Connect the USB Cable from the Tuning Adapter's USB port to the CableCARD-equipped DVR's USB port.

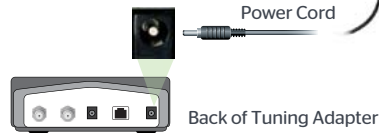

Time Warner Cable Easy Connect

Step 4 Connect Tuning Adapter to electric outlet

Plug the Tuning Adapter in to the nearest wall outlet using the Power Cord.

Turn on the TV. A green light will blink on the front of the Tuning Adapter.

How to install your Motorola® Tuning Adapter

Activation

Step 5 Activate new Tuning Adapter

After you have completed Steps 1-4, you will need to activate the new Tuning Adapter.

1. Call Within California: **(877) 309-5869** / Outside California: **(877) 893-2205**.
2. Identify your account using the telephone number on your account.
3. Select Technical Support option. Then select Cable TV option. Finally, choose the option "re-authorize cable box."

Activation will take up to 60 minutes.

Do not turn off or unplug the Tuning Adapter while it is being activated.

4. Follow the on-screen instructions to test your channels and complete the Tuning Adapter set-up.
