

Ericsson Piperider HM200C- <http://www.cable-modems.org/gallery/>

Ericsson got two USB cable modems certified in July 2000. The *HM200c Piperider* was DOCSIS 1.0 certified and the *HM201c Piperider* was certified for EuroDOCSIS. The Ericsson website shows only one DOCSIS cable modem, but that is because the two modems look the same apart from the model number. One more certification in September 2001.
