UR2L-R803

1 Introduction
This remote control is designed to operate Cable boxes and TVs.

2 Replacing Batteries
Before you program or operate the remote control, you must install two new AAA alkaline batteries.

3 Button Functions
- POWER
  + / -
  ON DEMAND
  Provides direct access to On Demand channel.
- LIGHT BUTTON
  Press to backlight all keypad when the cursor is being viewed.
- VOL / MUTE
  + / -
  Volume or lowers the sound level.
- TRANSPORT
  Selects items to control the playback of what is being viewed.
- OK/SEL
  Reserves for future use.
- LIGHT BUTTON
  Press to backlight all keypad when the cursor is being viewed.
- OK/SEL
  Reserves for future use.

4 Programming the Remote Control
A. Quick Set-Up Method
(Refer to the Section B Quick Set-up Table of codes)

STEP1
Turn on the component you want to program. To program your TV, turn on the TV.

STEP2
Point the remote control toward the equipment and enter the three-digit code number assigned to your brand from the code tables. If there are more than one three-digit number listed for your brand, try one code number at a time until your equipment turns off.

STEP3
Press the [OK] button. The equipment should turn off. Then try all of the functions on the remote control (i.e. volume, mute, etc.) to ensure you have the correct code. If any of the functions do not operate as they should, repeat the instructions from STEP 3 above using the next three-digit code number for your brand.

STEP4
Press and hold the [HOME] button for 5 seconds until the Power LED will blink once and stays on. Continue to hold the [HOME] button and press the number key assigned to your brand in the Quick Set-Up Code Table and release both [HOME] key and the number key to save the code. The Power LED will blink twice to confirm that the code is stored.

Note: You can verify that you have selected the correct code by pressing the [POWER] button. The equipment should turn off. Then try all of the functions on the remote control (i.e. volume, mute, etc.) to ensure you have the correct code. If any of the functions do not operate as they should, repeat the instructions from STEP 3 above using the next three-digit code number for your brand.

B. Quick Set-Up Code Tables

<table>
<thead>
<tr>
<th>Quick Number</th>
<th>Manufacturer / Brand</th>
</tr>
</thead>
<tbody>
<tr>
<td>01</td>
<td>SONY</td>
</tr>
<tr>
<td>02</td>
<td>SHARP</td>
</tr>
<tr>
<td>03</td>
<td>LG</td>
</tr>
<tr>
<td>04</td>
<td>TOSHIBA</td>
</tr>
<tr>
<td>05</td>
<td>PANASONIC</td>
</tr>
<tr>
<td>06</td>
<td>NOKIA</td>

C. Manual Programming
The remote control can be programmed by entering a three-digit code number that corresponds to particular brands and models of equipment. The three-digit code numbers are listed in the code tables sections of this instruction manual.

D. Auto Search Method
If none of the three digit code numbers assigned to your brand of equipment works, or your code does not list your brand, you can use the Auto Search Method to find the correct three-digit code number for your equipment by following steps:

STEP1
Point the remote control toward the equipment and enter the three-digit code number assigned to your brand from the code tables. If there are more than one three-digit number listed for your brand, try one code number at a time until your equipment turns off.

STEP2
Point the [HOME] button and the [OK] button simultaneously for 3 seconds. The Power LED will turn on indicating that it is ready to be programmed. The LED will remain on for 30 seconds. The next step must be entered while the LED is on.

STEP3
Press the [OK] button again. The Power LED will blink twice to confirm that the code is stored.

E. The Learning Method

STEP1
Press the [OK] button to program the [CH 

*Note:* You can verify that you have selected the correct code by pressing the [POWER] button. The equipment should turn off. Then try all of the functions on the remote control (i.e. volume, mute, etc.) to ensure you have the correct code. If any of the functions do not operate as they should, repeat the instructions from STEP 3 above to continue the Auto Search Method.

Once you have completed teaching the remote all desired commands for the equipment, the LED light bleinks twice.

*Note:* The LED light will blink 5 times if there was an error in the learning process. Repeat STEPS 3 and 4 of this section to continue learning other functions by repeating STEPS 3 and 4.

**G. Erasing All Learned Commands**

**Erasing All Learned Commands**

**STEP 1**

Press the [OK/SEL] button and the [POWER] button simultaneously for 3 seconds. The POWER LED will turn on for 30 seconds. The next step must be performed while the LED is on.

**STEP 2**

Press and hold the button you want to erase for 3 seconds. The LED will blink twice to confirm the erasure.

**STEP 3**

To exit, press both the [POWER] and [ # ] buttons simultaneously for 3 seconds. The LED blinks 3 times.

---

**F. Erasing a Single Learned Command**

**STEP 1**

Press the [OK/SEL] button and [POWER] button simultaneously for 3 seconds. The POWER LED will turn on for 30 seconds. The next step must be performed while the LED is on.

**STEP 2**

Press and hold the button you want to erase for 3 seconds. The LED will blink twice to confirm the erasure.

**STEP 3**

To exit, press both the [POWER] and [ # ] buttons simultaneously until the LED blinks 3 times.

---

**H. Programming Volume Control**

By default, the VOL+, VOL- and MUTE keys operate through your TV. If you would like those keys to operate on different functions, follow these steps.

**STEP 1**

Press the [OK/SEL] button and [POWER] button simultaneously for 3 seconds. The POWER LED will turn on for 30 seconds. The next step must be performed while the LED is on.

**STEP 2**

Press the [VOL+] button. The POWER LED will blink.

**STEP 3**

Press the [HOME] or [POWER] button corresponding to the device that you would like the volume and mute buttons to control. The POWER LED will blink twice to confirm the programming.

---

**I. Memory Lock System**

This remote control is designed to retain programmed memory for 10 years — even after batteries are removed from the remote control.
