Introduction

VCR

CBL

Through the CABLE STB. You have the option of controlling your CABLE channel and number through the TV or VCR. Refer to section 2.3.6.8. Jump through the number keys on the remote to select the channel number. There is no need to enter a broadcast or private channel. The CBL will automatically transfer to the respective component based on the Device selected:

- Set tops, Plus the majority of TV, VCR, DVD designed to operate the CISCO / SA, Pioneer, Pace Micro, Samsung and Motorola digital programming steps.

Replacing Batteries

Replacing Batteries on the back of your remote control.

There are three ways you can program your remote:

A. Quick Set-Up Method

B. Pre-Programmed 3-Digit Code Method

C. Auto-Search Method

D. TV, VCR, DVD

E. Programming the AUX Device

F. Quick Number Code

G. Programming Volume Control

H. Programming Channel Control

J. Low Battery Warning

K. About the remote control

L. Record Your Component Setup Codes

A Quick Set-Up Method

Turn on the equipment you want to program (TV, VCR, DVD, etc.). Then try all of the functions on the remote control (i.e. volume, mute, etc.) to turn it on. Then try all of the functions on the remote control (i.e. volume, mute, etc.) to confirm that the code has been entered.

B. Pre-Programmed 3-Digit Code Method

Press the [DEVICE] key for three seconds. The Device LED will turn on for 30 seconds. The next step must be entered in the 3-digit code assigned to your brand.

C. Auto-Search Method

If you wish to store the TV channel controls in your remote, you must enter the TV channel controls. For additional information about your remote control (i.e. volume, mute, etc.) to the TV, you may replace the batteries and follow the directions below:

D. TV, VCR, DVD

1. Turn on the 5th device you want to program (TV, VCR, DVD, etc.).

2. Press the [SYSTEM ON/OFF] button and hold for three seconds.

3. Press the [CHANNEL] or [TV] button as soon as the A-B device LED blinks.

4. Press the [OK/SEL] button simultaneously for three seconds. The device LED will blink twice.

E. Programming the AUX Device

For additional information about your remote control (i.e. volume, mute, etc.) to the AUX device LED, you may follow the directions below:

1. Press the [DEVICE] key for three seconds. The Device LED will turn on for 30 seconds.

2. Press the [OK/SEL] button and hold for three seconds. The Device LED will blink twice.

3. Press the [CHANNEL] or [TV] button as soon as the A-B device LED blinks.

4. Press the [OK/SEL] button simultaneously for three seconds. The device LED will blink twice.

F. Quick Number Code

For additional information about your remote control (i.e. volume, mute, etc.) to the Quick Number code, you may replace the batteries and follow the directions below:

2. Press the [OK/SEL] button and hold for three seconds. The Device LED will turn on for 30 seconds.

3. Press the [OK/SEL] button simultaneously for three seconds. The device LED will blink twice.

G. Programming Volume Control

For additional information about your remote control (i.e. volume, mute, etc.) to the TV, you may replace the batteries and follow the directions below:

1. Press the [CHANNEL] or [TV] button as soon as the A-B device LED blinks.

2. Press the [OK/SEL] button simultaneously for three seconds. The device LED will blink twice.

3. Press the [CHANNEL] or [TV] button as soon as the A-B device LED blinks.

4. Press the [OK/SEL] button simultaneously for three seconds. The device LED will blink twice.

H. Programming Channel Control

For additional information about your remote control (i.e. volume, mute, etc.) to the AUX device LED, you may follow the directions below:

1. Press the [DEVICE] key for three seconds. The Device LED will turn on for 30 seconds.

2. Press the [OK/SEL] button and hold for three seconds. The Device LED will blink twice.

3. Press the [CHANNEL] or [TV] button as soon as the A-B device LED blinks.

4. Press the [OK/SEL] button simultaneously for three seconds. The device LED will blink twice.

J. Low Battery Warning

For additional information about your remote control (i.e. volume, mute, etc.) to the USA, you may replace the batteries and follow the directions below:

1. Press the [CHANNEL] or [TV] button as soon as the A-B device LED blinks.

2. Press the [OK/SEL] button simultaneously for three seconds. The device LED will blink twice.

3. Press the [CHANNEL] or [TV] button as soon as the A-B device LED blinks.

4. Press the [OK/SEL] button simultaneously for three seconds. The device LED will blink twice.

K. About the remote control

For additional information about your remote control (i.e. volume, mute, etc.) to the USA, you may replace the batteries and follow the directions below:

1. Press the [CHANNEL] or [TV] button as soon as the A-B device LED blinks.

2. Press the [OK/SEL] button simultaneously for three seconds. The device LED will blink twice.

3. Press the [CHANNEL] or [TV] button as soon as the A-B device LED blinks.

4. Press the [OK/SEL] button simultaneously for three seconds. The device LED will blink twice.

L. Record Your Component Setup Codes

For additional information about your remote control (i.e. volume, mute, etc.) to the USA, you may replace the batteries and follow the directions below:

1. Press the [CHANNEL] or [TV] button as soon as the A-B device LED blinks.

2. Press the [OK/SEL] button simultaneously for three seconds. The device LED will blink twice.

3. Press the [CHANNEL] or [TV] button as soon as the A-B device LED blinks.

4. Press the [OK/SEL] button simultaneously for three seconds. The device LED will blink twice.
